1. Zeiss Jena has delivered field glasses to the DDR Büro für Wirtschaftsfragen (Office for Economic Questions) during the past few months and plans to continue delivery in the future on a monthly basis.
2. The delivery in August 1952 was 1,000 pairs; in September, 672 pairs were delivered. The August shipment contained 700 pairs of 6 x 30 "type glasses", 100 pairs of 10 x 50 type, the remainder 7 x 50. The entire September delivery was of the 10 x 50 type.
3. About 50 percent of the binoculars so far delivered by the firm bear the Zeiss stamp. The stamp has been changed (umgraviert) on the other pairs to that of a cover firm. Glasses stamped with the name of the cover firm have scales for the determination of distance in the eye pieces.

25X1A  Comment: The characterization 6 x 30 indicates glasses of power 6 with a field of vision diameter of 30 millimeters.)
